Dedication

The Morrow County Genealogical Society would like to thank Betty Meier and Sandy Oty for abstracting these Early Morrow County Birth Records.

We would also like to recognize the efforts of Betty Meier who compiled these transcriptions into a format for publication.

Acknowledgements

Thanks goes to our Book Committee: Winton and Delores Arnold, Lewis Caskey, Marguerite Davis, Paul and Betty Meier, and Coriel Rauch for their efforts to print this book for others to use in their research.

INTRODUCTION

The information contained in this book was obtained by abstracting Morrow County, Ohio Probate Birth Records from microfilm.

The information is exactly as it appeared to the abstractor, abbreviations, misspellings and different spellings. It is especially hard to read and misspellings are common. Keep in mind that deciphering the handwriting was sometimes very difficult to almost impossible to read. A question mark (?) will appear in records where deciphering was confusing or impossible.. We must consider common handwriting deciphering problems, such as I's looking like E's, A's like O's and T's for F's etc.

Also First names and Last names were switched about from one line to the next. The abstractor used her best judgment in these situations. It was found that surnames are spelled two different ways in the same records. In the spirit of creating good records, we have left that kind of assumption to the researcher, as either spelling could be correct.
